Kenny Taylor, AIC  
The Greenspan Co. / Adjusters International  
5000 Hopyard Rd., Suite 302  
Pleasanton, CA 94588

Re: Public Adjusting Services

To Whom It May Concern:

If you are reading this letter then you probably have experienced the unfortunate reality of suffering a devastating property loss. Now you must deal with your insurance carrier and attempt to recover financially. Without The Greenspan Co. / Adjusters International my recovery would not have been possible.

By retaining The Greenspan Co. / Adjuster International at the onset of the claims process, my final settlement was nearly 30% more than what the insurance company originally offered. The Greenspan Co. / Adjusters International's highly skilled and professional team of adjusters, building estimators, and inventory specialists attention to detail and ability to support the claimed damages was more impressive than I could have ever imagined. In particular, the tireless work of Kenny Taylor, bryan Fox and Vic Johnson was truly amazing. Throughout the claim process I was constantly aware of the obstacles, challenges and strategies for resolution. I never felt as though Greenspan was at a disadvantage when negotiating against the insurance company. It was a level playing field.

I will be forever grateful for the work done on my behalf and certainly endorse the hiring of The Greenspan Co. / Adjusters International. Their level of service more than justifies the fees and most importantly they get results.

Sincerely,

A handwritten signature in cursive script, appearing to read "Marie King". The signature is fluid and stylized, with a large loop at the end.
